**Larry Fink Letter to Companies
January 2018**

- society increasingly is turning to the private sector and asking that companies respond to broader societal challenges.
- Indeed, the public expectations of your company have never been greater. Society is demanding that companies, both public and private, serve a social purpose.
- To prosper over time, every company must not only deliver financial performance, but also show how it makes a positive contribution to society.
- Companies must benefit all of their stakeholders, including shareholders, employees, customers, and the communities in which they operate.
- Without a sense of purpose, no company, either public or private, can achieve its full potential. It will ultimately lose the license to operate from key stakeholders.”
